

Capability Statement

Education | Events | Professional Training | Wildlife Management

Hands on Wildlife is an approved venomous reptile training provider through the Queensland Department of Environment and Science. Based in Townsville, we are well positioned to service regional areas throughout Queensland, including remote locations.

Safety is our main priority, we teach "zero-personal contact" snake handling methods and provide all required safety gear.

COURSE CONTENT

- Snake identification
- Snake and reptile behaviour, including how to recognise sick and injured reptiles
 - Proper and safe "zero-contact" handling techniques for venomous and non-venomous snakes and large monitor lizards.
 - Proper PPE
- Venom, envenomation, and proper first aid for snake bite
- Recognising appropriate habitat and release sites for reptiles
 - Permit requirements and legalities of reptile relocation

COURSE OUTCOMES

- Certificate of completion for use to apply for Damage Mitigation Permit.
- Experience safely handling a variety of live reptiles relevant to your region.
- Take home course materials

ADDITIONAL SERVICES

- Dangerous Wildlife Awareness Training
- Reptile Relocation Equipment Supplier

KEY PERSONEL
